

LIVECO WITH ELECTRONIC  
THERMOREGULATOR (CN 05)

CN05 250 EIS W

Net weight	6.52 kg
Maximum power	2500 W
Thermo regulator	electronic
For room up to	50-70 m <sup>3</sup>
Heating area	20-28 m <sup>2</sup>
Height	0.459 m
Width	0.077 m

## Information

CN05 250 EIS W

- Maximum power : 2500 W
- Optimal convection - up to 25% faster room heating
- Precise thermoregulator with an accuracy of 0.1°C
- Electronic thermoregulator 10-30°C
- Up to 21% lower electricity costs\*
- Thermostat calibration to achieve the desired comfort - temperature correction  $\pm 4^{\circ}\text{C}$
- Weekly programmer 24h/7d with 30-minute step
- Adaptive start with on/off option - provides optimal comfort and saves energy
- Bathroom installation option - splash proof IP24 protection
- Delayed start function - 96 hours
- Anti-frost protection, fixed on 5°C, with on/off option
- Keyboard lock / children protection
- Overheating protection
- LED display indicating desired and actual room temperature
- Robust metal construction

## Serie information

CN05 250 EIS W

LivEco has a NEW, modern design with a thinner profile and robust metal construction, LED display showing the desired and actual room temperature.
