

# Multiblock T and Uni SH Blackline Edition

# Blackline Edition

Precision heat.  
Clean style.

Stylish and matt, refined and minimalist – this is how the *new Blackline Edition* of our proven combination consisting of a **Multiblock T** and a **Uni SH** thermostat presents itself.

Our *Blackline Edition in the trendy colour matt black* blends harmoniously into any modern living room or bathroom. The **Multiblock T** connection fitting with matching design cover and the **Uni SH** radiator thermostat are the perfect combination for modern rooms with character. The set *precisely regulates the desired temperature* and stylishly enhances rooms with its minimalist design. The special *surface with anti-fingerprint effect* is particularly easy to clean. Our *Blackline Edition* is the perfect match for all black radiators in a modern design.

## ADVANTAGES OF THE BLACKLINE EDITION IN MATT BLACK

- + Modern, multi-award winning design
- + Perfect for modern interior design in the *trendy colour matt black*
- + Easy-to-clean surface with *anti-fingerprint-effect*
- + *Intuitive handling* and good readability
- + *Easy and precise* temperature setting
- + Available as complete set or separately
- + Proven *Oventrop quality*

## THE ALL-IN-ONE SOLUTION

The Uni SH is our smallest thermostat and combines attractive design with outstanding functionality. The **Multiblock T** is a combination consisting of a thermostatic valve and a connection fitting. The products of our *Blackline Edition* are available separately or as a complete set in angle or straight versions, consisting of a **Multiblock T** connection fitting, a design cover, a **Uni SH** thermostat and an **SH-Cap**.
